Amendments to the Claims:

This listing of claims will replace all prior versions and listings of claims in the application.

- 1. (Currently amended) A therapeutic composition comprising a glycoprotein preparation having improved complement-dependent cytotoxicity activity, said glycoprotein having an immunoglobulin CH2 domain and said CH2 domain having at least one N-linked oligosaccharide, wherein substantially all of the oligosaccharide is a G2 oligosaccharide and wherein the amount of said glycoprotein containing G1 and G0 oligosaccharide does not exceed 10% by weight of the preparation, and wherein the glycoprotein preparation has improved complement-dependent cytotoxicity activity compared to a preparation of that glycoprotein having heterogeneous oligosaccharide.
 - 2. (Original) The composition of claim 1 wherein the glycoprotein is an antibody.
- (Original) The composition of claim 2 wherein the antibody is a monoclonal antibody.
 - 4. (Original) The composition of claim 3 wherein the antibody is an IgG.
 - (Original) The composition of claim 4 wherein the IgG is human IgG1.
- 6. (Original) The composition of claim 5 wherein the monoclonal antibody is selected from the group consisting of an anti-CD20 specific monoclonal antibody, an anti-HER2 specific monoclonal antibody, and anti-VEGF specific monoclonal antibody, and an anti-IgE specific monoclonal antibody.
- 7. (Withdrawn) The composition of claim 1 wherein the glycoprotein is an immunoadhesin.
- (Withdrawn) The composition of claim 7 wherein the immunoadhesin is a tumor necrosis factor-immunoglobulin G1 chimera.
- (Withdrawn) The composition of claim 1 wherein the glycoprotein is an antibodyimmunoadhesin chimera.
 - 10-24. (Canceled)

- (Original) A pharmaceutical composition comprising the composition of claim 1 and a pharmaceutically acceptable carrier.
- 26. (Original) A pharmaceutical composition comprising the composition of claim 6 and a pharmaceutically acceptable carrier.
- 27. (Withdrawn) A pharmaceutical composition comprising the composition of claim 7 and a pharmaceutically acceptable carrier.
 - 28. (Previously presented) An article of manufacture, comprising:
 - a container;
 - a label on said container; and
 - the composition of claim 1 contained within said container.
- 29. (Original) The article of claim 28 wherein the label on the container indicates that the composition can be used for the treatment of cancer.
